1.0 INDIGENOUS ENGAGEMENT

Indigenous Engagement as part of the Stage 3 Archaeological Assessment of Site AiGx-432 was initiated on March 20, 2018. ASI was directed by the proponent to engage with the Six Nations of the Grand River First Nation and the Mississaugas of the New Credit First Nation.

As per the Nations' preferences, any agreements between the Nation and the proponent, as related to the project, were administered by the respective parties with all further communication between ASI and representatives from the Six Nations of the Grand River First Nation (SNEC) and the Mississaugas of the New Credit First Nation (MNCFN) strictly related to the scheduling of fieldwork and sharing of assessment results.

During the course of the fieldwork undertaken on April 23-24, 2018, representatives of both nations were present on site for fulsome participation. The Six Nations of the Grand River were represented by Colleen McNaughton, and the Mississaugas of the New Credit First Nation was represented by Adam LaForme and David Sault.

The results of this archaeological assessment and a copy of the final report (ASI 2018) will be shared with the communities in an effort to keep them updated and informed. No concerns regarding the methodology were expressed.
